

FACT SHEET

2014 LED ARTERIAL STREET LIGHT CONVERSION

PROJECT NO.14-30

Project Description:

This project provides the installation labor for the conversion of existing street light luminaires from high pressure sodium (HPS) to light-emitting diode (LED). The project consists of two phases. The first phase was completed in December 2014, and converted 3,100 luminaires on arterial roads. The second phase will convert 2,108 luminaires on arterial and collector roadways. Two purchased order contracts were set up for the purchase of the LED luminaires for the use on this project.

Project Schedule:

Preliminary Design/Environmental	May 2015
Final Design	October 2015
Advertise	December 2015
Award Construction	January 2016
Construction	September 2014 – September 2015

Project Cost:

Design Cost	
Construction / Management	<u>\$ 253,915</u>
TOTAL COST	\$ 253,915

Project Funding:

Local (General Fund)	<u>\$ 1,200,000</u>
TOTAL FUNDING	\$ 1,200,000

Project Manager:
